List of Figures	V
List of Tables	VI
List of Appendices	VII
Abbreviations	VIII
Abstract	X
Arabic Abstract	XIII
Chapter one: Introduction and Literature Review	1
1.1. Introduction	1
1.2. Literature Review	6
1.2.1. Aetiology	6
1.2.2. Clinical presentation and complications	9
1.2.3. Epidemiology	12
1.2.3.1. Epidemiology of measles, mumps and rubella in Sudan	14
1.2.4. Role of health-care workers in the epidemiology of measles, mumps and rubella	20
1.2.5. Diagnosis	21
1.2.6. Vaccine	29
Chapter Two: Materials and Methods	36

2.1. Seroprevalence of measles, mumps and rubella among children and adults in the community and health care workers in Khartoum, Sudan	36
2.1.1. Study design	36
2.1.2. Study area	36
2.1.3. Study participants	37
2.1.4. Sampling methods and calculation of sample size	38
2.1.5. Collection of clinical samples	39
2.1.6. Questionnaire	39
2.1.7. Elution of Serum from dried blood samples	40
2.1.7.1. Components and preparation of the extraction buffer	40
2.1.8. Detection of measles, mumps and rubella-specific IgG antibodies	41
2.1.8.1. Assays principle	41
2.1.8.2. Contents of the Kits	42
2.1.8.3. Materials and equipment	43
2.1.8.4. Assays procedures	44
2.1.8.5. Calculations of results	45
2.1.9. Statistical analysis	47

2.1.10. Ethical considerations	47
2.2. Molecular and phylogenetic analysis of mumps virus in Sudan	48
2.2.1. Study design	48
2.2.2. Study area	48
2.2.3. Study participants	48
2.2.4. Clinical specimens and data collection.	49
2.2.5. Nucleic acid extraction	49
2.2.6. Reverse transcription and polymerase chain reaction	50
2.2.7. Sequencing and genotyping	52
Chapter Three: Results	53
3.1. Seroprevalence of measles, mumps and rubella in Khartoum, Sudan	53
3.1.1. Characteristics of the study participants	53
3.1.2. Seroprevalence of measles, mumps and rubella among children, adults and health care workers in Khartoum, Sudan	55
3.1.3. Risk factors associated with the seroprevalence of measles, mumps and rubella in Khartoum, Sudan	57
3.1.3.1. Children	57
3.1.3.2. Adults	60

3.1.3.3. Health care workers	63
3.1.4. Measle, mumps and rubella IgG antibody titres among different study cohorts	66
3.2. Molecular detection and phylogenetic analysis of mumps virus	69
Chapter Four: Discussion	74
Discussion	74
Conclusion	81
Recommendations	82
References	83
Appendices	94
